**TOPICS:**

Business Information Systems (MIS); E-Commerce; Marketing Research; Operations Research/Statistics; Production/Operations; Purchasing/Materials Management; Strategic Management Policy; Technology/Innovation; Transportation/Physical Distribution.

## MANUSCRIPT GUIDELINES/COMMENTS:

### Description

The vast amount of information that must be considered to solve inherently ill-structured and complex strategic problems creates a need for tools and techniques to help decision makers recognize the complexity of this process and develop a rational model for strategy evaluation. The *International Journal of Strategic Decision Sciences* (IJSDS) is a double-blind refereed journal whose focus is to promote the infusion of strategic decision-making with the analytical methods. *IJSDS* distinguishes itself as a business journal with an explicit focus on analytical strategic decision-making. The journal provides a publication vehicle for theoretical and empirical research as well as real-world applications and case studies. Papers published in *IJSDS* should not only meet high standards of research rigor and originality in decision sciences, but also embrace strategic decision-making.

### Mission

Prospective authors are invited to submit manuscripts for possible publication in IGI Global journals. All journals publish original material concerned with all aspects of emerging information technologies and applications.

### Types of Submissions

- Empirical research
- Conceptual models
- Theory building
- Innovative methodologies and applications
- Case studies
- Book reviews on selected books, textbooks, or specific topics dealing with values, concepts, and applications of breakthrough information science and technology

### Originality and Copyright

Please note that simultaneous submissions are not acceptable. Submission of a manuscript is interpreted as a statement of certification that no part of the manuscript is copyrighted by any other publication nor is it under review by any other formal publication. Please see the following important points regarding copyright:

- **Originality of manuscripts.** Only ORIGINAL and PREVIOUSLY UNPUBLISHED manuscripts will be accepted for publication. Upon acceptance of your manuscript, you will be required to sign a warranty that your manuscript is original and has not been submitted for publication or published elsewhere. All copyrights, including translation of the published material into other languages, are reserved by the publisher, IGI Global. Upon transfer of the copyright to the publisher, no part of the manuscript may be reproduced in any form without written permission of the publisher.
- **Revised manuscripts.** IGI Global will not publish a manuscript that is a “revised” version of a manuscript that you published elsewhere. While your manuscript may certainly be based on the same data and research as another manuscript published by you, the manuscript you submit to IGI Global must be a completely new and original work—in other words, it must not have the same wording or formatting as another manuscript previously published by you.
- **Acquiring permission for copyrighted images.** It is YOUR responsibility to obtain written permission to include any copyrighted images (whether they be screenshots [e.g., a screenshot of a page from a company’s Web site, a screenshot of a scene from a video game, etc.], figures, tables, graphics, etc.) in your manuscript. The copyright holder must agree to and sign IGI Global’s permission form before IGI Global will agree to include the image in your manuscript. To obtain a copy of this permission form, please contact IGI Global (development@igi-global.com).

After you obtain permission, you are then responsible to indicate in the caption of the image the original source of the image and that it is being used in your manuscript with permission. Your caption should look something like this:

*Figure 1. [insert caption here]. (© [insert copyright year here], [insert copyright holder's name here]. Used with permission.)*

Please note that, should you create an image that is loosely based on another copyrighted image, you must indicate in the image caption that your image is adapted from another copyrighted image and then provide the original source:

*Figure 1. [insert caption here]. (Adapted from [insert source of copyrighted image here]).*

As some publishers require that you obtain permission for use of even an image that you may have adapted from one of their images, it is YOUR responsibility to investigate as to whether or not permission is needed for your adapted image.

\*\*\*Important Note: Since acquiring permission may take a significant amount of time, it is very important that you begin the process as soon as possible.

- **Permission fees.** Subsequent to the previous point, if the copyright holder of an image is requiring a one-time permission fee, IGI Global will agree to publish the figure, provided that the author pays the fee. However, IGI Global will not agree to publish any copyrighted image for which a permission fee is required for each subsequent publication of the image.
- **Trademark use.** All trademark use within your manuscript must be credited to its owner, or written permission to use the name must be granted.

Please include in your submission the *title* of the Journal.

Editor in Chief; Prof. Dr. Madjid Tavana; Professor of Management Information Systems; Lindback Distinguished Chair of Information Systems; La Salle University; Management Department; 1900 West Olney Ave.; Philadelphia, PA 19141; USA. [tavana@lasalle.edu](mailto:tavana@lasalle.edu).
